

Psychiatrist Opportunity

Join Greater Houston Psychiatric Associates

Greater Houston Psychiatric Associates (GHPA) is one of the Houston area's leading psychiatric practices, providing comprehensive mental health services throughout the Greater Houston region. Since 2001, our physicians and advanced practice providers have been dedicated to delivering high-quality, patient-centered psychiatric care while making a meaningful impact on the mental health and well-being of our communities.

We are seeking a Board-Certified or Board-Eligible Psychiatrist to join our growing multidisciplinary team. This opportunity offers the ideal combination of clinical autonomy, professional support, and work-life balance within an established and respected psychiatric practice.

Why Join GHPA?

At Greater Houston Psychiatric Associates, we believe exceptional patient care begins with supporting our providers. Our practice offers flexibility to focus on patient populations and treatment modalities that align with your interests and expertise while maintaining control of your schedule. Providers enjoy a collaborative environment without sacrificing independence. Our shared call structure is designed to promote a healthy work-life balance, with call responsibilities typically limited to only 3 to 4 weekends per year and holidays rotated equitably among providers.

Established Infrastructure and Support

As a member of GHPA, you will benefit from the resources and stability of an established medical group, including:

- Fully integrated Electronic Medical Record (EMR) system
- Established contracts with major insurance carriers and healthcare organizations
- Comprehensive billing and revenue cycle management services
- Administrative support including payroll, human resources, credentialing, and compliance
- Guidance and mentorship for office operations, growth, and practice development
- Financial assistance opportunities to help physicians establish and grow their practice

Advanced Treatment Programs

GHPA offers access to a comprehensive continuum of psychiatric services and innovative treatment programs, including:

- Outpatient psychiatric evaluation and medication management
- Collaborative care with licensed therapists and counselors
- Physician-Directed Intensive Outpatient Programs (PD-IOP)
- Treatment-Resistant Depression (TRD) programs
- SPRAVATO® (esketamine) treatment through our certified REMS program
- Electroconvulsive Therapy (ECT)
- Other evidence-based interventional psychiatric treatments

These services allow providers to offer patients advanced treatment options while working within a highly collaborative and integrated care model.

Ownership and Leadership Opportunities

Unlike traditional employment models, GHPA offers physicians the opportunity to become part of the long-term growth and leadership of the organization. Providers can help shape clinical programs, mentor future clinicians, contribute to organizational culture, and pursue partnership and ownership opportunities within the practice.

Competitive Benefits

Our comprehensive benefits package includes:

- Competitive compensation structure
- Medical insurance
- Tax-advantaged retirement planning options
- Professional growth and leadership opportunities
- Flexible scheduling and generous time-off flexibility
- Supportive and collaborative physician network

Make a Difference in Houston

If you are passionate about delivering exceptional psychiatric care and are looking for a practice that values clinical excellence, provider autonomy, innovation, and work-life balance, we invite you to explore a career with Greater Houston Psychiatric Associates.
